Hi Tim,

I am [REDACTED] from your tutorial section. I made a big decision that I would not stay in Chem Eng for the third year, because I found Chemistry is more attractive for me. Today, I dropped some courses and automatically switched to part-time status, and CHE299 is dropped as it is a one-year long year. And I would not be able to attend to further classes

I want to say that you are an amazing TA, very friendly, energetic and humorous. I really enjoy your classes, and it is one of the best tutorials I have ever had! That is really cool!

Thank you for your teaching and wish you with the best wishes!

Best,

[REDACTED]
